

FERNANDO DE LA TORRE

Full Stack-Software Engineer/Software Developer

SUMMARY

Creative, detail-oriented, software engineer with a deep interest in AI. Proven track record of creating and implementing successful front and back-end web applications. I am looking to bring my skills to a tech company with global reach.

WORK EXPERIENCE

Software Engineer at 100devs, Remote

January 2022 — Present

- Collaborated with a team of developers to build modern and responsive web applications using best practices.
- Built semantically structured full stack web applications.
- Applied agile methodologies like SCRUM for project management.

Recent Projects:

Juegos Rancheros Game HUB(Full stack Web App) – Was a part of a Remote International Team of Software Engineers who came together as a group with different ideas to help create an Entertainment/Game HUB containing a variety of games from which to choose.

(Full stack Web App) – HTML, CSS, JavaScript are some of the coding languages used for creating this project. As well as utilities like an AI Bot and a Random Regenerator for Player Vs Bot play.

100Hours Project-

Fighter Game: Player can get in the game and fight an opponent by using keyboard for movement and attack. Fight to the finish or until the timer runs out.

(Full stack Web App) – HTML, CSS, JavaScript are some of the coding languages used for creating this project.

International Flight Attendant at Continental/United Airlines

1999 – 2014

Houston, TX

- Ensured cabin cleanliness and provided exceptional customer service.
- Assisted passengers with their luggage and addressed special needs.
- Conducted preflight inspections and enforced FAA regulations and standards.
- Played a pivotal role in spearheading the airline's remarkable transformation from worst to first on-time performance and customer service, leveraging collaborative efforts and dedication.
