FERNANDO DE LA TORRE

Full Stack-Software Engineer/Software Developer

SUMMARY

Creative, detail-oriented, software engineer with a deep interest in AI. Proven track record of creating and implementing successful front and back end web applications. Looking to bring my skills to a tech company with global reach.

WORK EXPERIENCE

Software Engineer at 100devs, Los Angeles, CA

January 2022 — Present

- Collaborated with a team of developers to build modern and responsive web applications using best practices
- Built semantically structured full stack web applications
- Applied agile methodologies like SCRUM for project management

Recent Projects:

(Full stack Web App) –

Recent Projects: Was a part of a Remote International Team of Software Engineers who came together as a group with different ideas to help create an Entertainment/Game HUB containing a variety of games from which to choose.

(Full stack Web App) – HTML, CSS, JavaScript are some of the coding languages used for creating this project. As well as utilities like an AI Bot and a Random Regenerator for Player Vs Bot play.

International Flight Attendant at United Airlines

Houston, TX

June 1999 — January 2014

Duties include ensuring that the cabin is clean, serving meals, drinks, and snacks to passengers, helping passengers with their luggage, assisting those who have special needs, conducting preflight inspections, and giving direction about how to evacuate the plane in case of an emergency, while practicing and enforcing FAA Regulations and Standards.
Highly trained in First Aid and medical and emergencies situations.
